Assignment_2.0

Steps: -

1) Create a tcl script named Ass2_0.tcl
2) Display on the screen the following message
   o "****Assignment 2.0****"
3) Create a list of name **"cities"** which contains the following elements.
   - cairo
   - alexandria
   - damietta
   - dakahlia
   - faiyum
   - sohag
   - aswan

The target to change the format of the elements name and store them in a new list of name "Cities_New" to have the first character "Uppercase Letter" and the rest of letters are "Lowercase" as follow

   - Cairo
   - Alexandria
   - Damietta
   - Dakahlia
   - Faiyum
   - Sohag
   - Aswan

Hint : *Loop on the list element using foreach*
